DISCUSSION:

Person Centered Thinking is a core concept at the foundation of the services and supports provided to people with intellectual disabilities and autism in Pennsylvania. People with disabilities, self-advocates, families, and other stakeholders are invited to come and learn about Person Centered Thinking and how it can be used to enhance the quality of life of the people we support.

Training begins at 9:00 a.m. and ends at 4:00 p.m. **You must attend both days in order to complete the training and receive a certificate of attendance.**

Training Description: This interactive two-day training serves as a foundation for everyone involved in supporting people with significant disabilities. During this training, participants will have the opportunity to develop their skills by completing a series of guided exercises. Participants will practice utilizing person-centered thinking resources and techniques.
